

Cairn at Fulletby Road Junction

Belchford Ahead have worked with St Lawrence School, Horncastle to build Cairn out of local flint stone collected from fields in Belchford. The local school was thrilled to be involved in the project and all involved felt it

extended the villages relationship with the wider community. The cairn is to have some sort of a plaque which writing has yet to be decided.

So if you have any good suggestions please contact the secretary of Belchford Ahead Jill Newby tel 533397
